PROFESSIONAL SUMMARY

Computer Science undergraduate and Full Stack Developer skilled in React.js, Node.js, Express.js, and MongoDB. Experienced in building scalable web applications, REST APIs, and AI-powered solutions. Strong foundation in Data Structures, Algorithms, OOP, DBMS, and Software Development practices. Interested in building reliable products using modern technologies and cloud platforms.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science

Expected 2027

Galgotias College of Engineering and Technology, AKTU

Senior Secondary (Class XII) — CBSE

2023

Renaissance School, Bulandshahr

Secondary (Class X) — CBSE

2021

Renaissance School, Bulandshahr

TECHNICAL SKILLS

Languages

JavaScript, Java, Python, TypeScript

Frontend

React.js, HTML5, CSS3, Bootstrap

Backend

Node.js, Express.js, Spring Boot

Databases

MongoDB, MySQL

DSA

Arrays, Linked Lists, Trees, Graphs, Sorting & Searching

Core CS

OOP • DBMS • OS • Computer Networks • System Design Basics

Cloud / DevOps

AWS (EC2, S3, IAM), Docker, Google Cloud, Git, GitHub, Linux

Cybersecurity

OWASP Top 10, Network Security Fundamentals, Authentication & Authorization

Tools

VS Code, Postman, GitHub

EXPERIENCE

Full Stack Development Virtual Internship (MERN Stack)

Feb – April 2026

TheSmartbridge

Remote

- Developed and integrated 10+ RESTful APIs using Node.js and Express.js, managing data through MongoDB and Mongoose with full CRUD operations.
- Developed responsive React.js user interfaces, integrated REST APIs, implemented JWT authentication, and collaborated on end-to-end MERN application development.
- Collaborated with a team of 4 developers, participated in code reviews, and incorporated feedback to improve code quality and meet sprint deadlines.
- Applied Git/GitHub workflows for version control, conducted API testing via Postman, and gained hands-on experience in deployment fundamentals.

Cloud & AI Program Participant | [Google Cloud Arcade](#) — [Google Cloud Skills Boost](#)

Apr – Jun 2026

- Completed 15+ cloud and AI learning challenges, earning skill badges across Google Cloud services including IAM, networking, security, and infrastructure management.
- Gained hands-on experience deploying, configuring, monitoring, and troubleshooting cloud resources through practical labs.
- Applied cloud security concepts and infrastructure best practices in real-world simulation environments.

PROJECTS

Project 1

AI-Powered Resume Screening & Candidate Ranking System | [Link](#) | [Live demo](#)

- ▶ Developed an AI-powered resume screening platform that analyzes multiple resumes against a Job Description using ATS-based matching.
- ▶ Implemented resume parsing, skill extraction, qualification matching, ATS score calculation, and candidate ranking.
- ▶ Built an interactive recruiter dashboard featuring search, analytics, charts, PDF hiring reports, and CSV export.
- ▶ Deployed the application using Render and maintained complete source code with GitHub version control.

Project 2

InterviewVerseAI – Full Stack Video Conferencing & Real-Time Chat Application | [Link](#)

- ▶ Developed a full-stack video conferencing and real-time chat application similar to Zoom/Google Meet using MERN stack.
- ▶ Implemented WebRTC-based video/audio communication, screen sharing, camera/microphone controls, and multi-user meeting rooms.
- ▶ Built secure authentication using JWT with protected routes, user management, and meeting history features.
- ▶ Integrated Socket.io for real-time messaging, participant updates, and instant notifications with a responsive Tailwind CSS interface.

CERTIFICATION

1. Cyber Job Simulation — Deloitte
2. Technology Job Simulation — Deloitte
3. ReactJS — Infosys Springboard
4. Java Programming Fundamentals — Infosys Springboard
5. Spring 5 Basics with Spring Boot — Infosys Springboard
6. Data Structures and Algorithms using Python – Part 1 — Infosys Springboard
7. Cyber Security: Understand Threats and Prevent Attacks — Alison
8. Discrete Mathematics — NPTEL
